

## Covid-19 (Corona Virus)

Hello all members and friends of OCC

We are all affected by what is currently going on in the UK regarding the Covid 19 virus and with all the government recommendations that have now been shared we have made the decision to close the club forthwith

This decision was not taken lightly as we are a club that historically has opened for the members by members as often as we can

However that last statement carries a certain amount of duty of care for all of us...

We have members that will need to self isolate for a period of 12 weeks, we have members that dependants may need their care and of course we need to protect everyone against catching the virus.

So as a committee elected by the members we believe the decision to close is the right one for everyone

We will review this decision regularly, however this forthcoming weekend [March the 21st](#) and 22nd the club will be closed.

There will be regular updates to all members going forward on any changes.

Please all stay safe and well, we promise a great party at the end of it all.

On behalf of the OCC committee

Anne Marie Commodore
