

NAVIGATION ADVISORY NOTICE

RIVER NENE

Date of Issue: 20 August 2026
Ref: LNA177

DATE: 20 August 2026 until rescinded

LOCATION: Orton Lock to Millenium Bridge

DETAILS:

Issue: Low water level fluctuations

Impact on Navigation: Navigate with Caution

Report: To mitigate the low levels between Orton Lock and Dog in a Doublet Lock we are now pumping water from the tidal river at Dog in a Doublet Sluice. Variation in level differences could fluctuate more than normal so we advise river users to navigate with caution and anticipate changing river levels when mooring, use springer lines and check on your boat more frequently. Whilst under way proceed with caution as shallower areas may become more prevalent and obstructions both above and below the water may become more pronounced. This notice will be rescinded once the situation stabilises but traffic can now transit through Orton Lock via self service.

Action: Whilst under way proceed with caution as shallower areas may become more prevalent and obstructions both above and below the water may become more pronounced.

Please see our website www.visitanglianwaterways.org for the latest updates.

We do not tolerate harassment or abuse towards our staff or contractors at any time. For further information, please contact the Environment Agency on 3708 506 506 between 9am and 5pm Monday to Friday and ask for the Lincolnshire and Northamptonshire Area Waterways team.

Katherine Briscoombe
Waterways Manager

Anglian Waterways does not provide rescue services. If the matter pertains to lock operation, obstructions in channel, safety issues or speeding please contact us first. In the event of an emergency or distress please contact the emergency services in the first instance. Call 999 and advise what the emergency is.
